

The Aberdeen

1,507 square feet

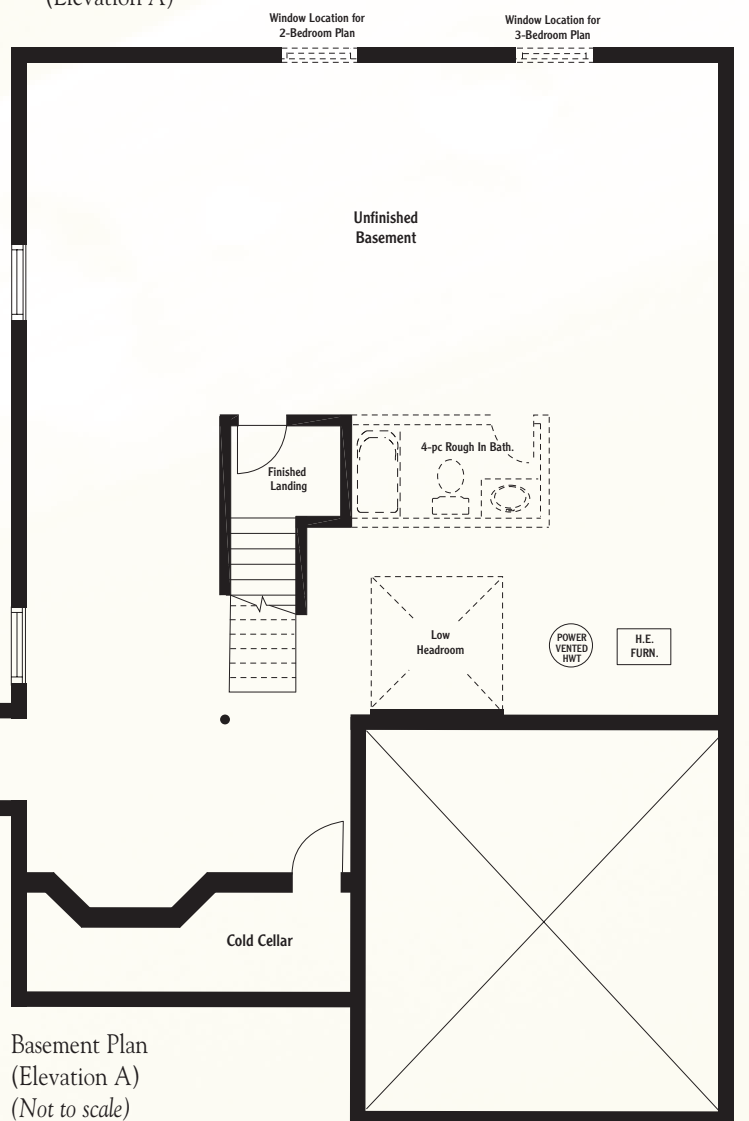

The Aberdeen is a uniquely designed bungalow that features either a 2 or 3 bedroom plan. Depending on design, the living room with its cozy gas fireplace has either a bay or bow window to let the light in. The dining room is quite distinctive with its coffered ceiling while the master bedroom has a bow window too. The ensuite is beautifully laid out with his and her basins and separate shower and soaking tub. There are many other optional features that can make this home truly unique.
